4.0 REPORTS FROM THE CHAIR & DG

4.1 *Chair Report:*

The Chair presented her monthly report highlighting school perseverance, back to school bus safety “Fais-moi de la place”, and an upcoming public consultation on educational success to receive public feedback on what can be done to improve graduation rates in Québec.

She provided a brief overview of Bill 105 noting that one of the positive aspects of this bill is that the Parent commissioners would receive the right to vote.

4.2 *Director General's Report:*

The Director General provided an overview of his monthly report noting that it is always important to celebrate student and staff success for initiatives taken to make learning more positive, e.g. the buddy bench where a student who is feeling lonely or bullied can go and talk with someone. He also drew attention to a list of talking points for taxation that will help Commissioners answer any questions received on that topic.

In response to questions concerning the declining enrollment at the Sir Wilfrid Laurier School Board, the Director General noted:

- the school board needs to analyze why students are leaving the Sir Wilfrid Laurier School Board after elementary school;
- it is assumed that some leave to go to private school or French school, where no interboard agreement is required. The most significant group are those families that request an interboard agreement to attend an English public school in Montréal;
- the process for granting interboard agreements needs to be reviewed.

5.0 BUSINESS ARISING

5.1 *Multi-Service Centre – Additional Funding:*

The Director General provided follow-up information from the Corporate Committee concerning the Multi Service Centre noting:

- a meeting was held with the Commission scolaire de la Seigneurie-des-Mille-Îles (CSSMI) with respect to the partnership agreement to discuss various concerns and an agreement in principle was made to amend the Partnership Agreement to take into consideration:
 - dossiers such as International Students;
 - a deficit in any given year will be absorbed by the centre;
 - all advertising must be bilingual;
 - equal and equitable representation when recruiting employees;
 - the Comité de suivi will oversee the operations of the centre and will be comprised of two representatives from each school board. For this schoolboard the representatives are the Assistant Director General and the Centre Director for Pont-Viau, while for CSSMI it is the Director of Adult Education & Vocational Training and the Centre Director for Vocational Training;
 - having Commissioner representation on the Comité de suivi can be brought to the comité for consideration;
- a big concern for this school board is maintaining adequate ETPs in order to meet the financial commitments such as this school board's costs for the operation of the center, interest, amortization etc.;
- a benefit for the English community is that the CSSMI has five programs it will offer bilingually;
- the Multi Service Centre will be able to grow if the programs applied for are granted by the Ministère;
- an Audit Committee will be established to audit registration, operations and all financial aspects in order to ensure conformity and equity between the partners;
- this partnership is very valuable to both school boards and their respective communities but as a minority school board ensuring a presence and the right to take a course in English is vital.

Discussion ensued and the Director General, with the assistance of the Directorate team, noted the following:

- the information concerning the number of immigration points per course will be provided later;
- with the change in the estimated cost of the project the number of ETPs required to break even have gone from 15 to 20. The Carpentry Program currently brings in 50 to 60 ETPs and if that can be maintained the school board will have what is required to meet its financial commitments;
- the question concerning equitable representation when a person calls the Multi Service Centre to inquire about Vocational Training programs has been addressed with CSSMI and a verbal agreement reached. Although it cannot be guaranteed 100%, CSSMI understands that both communities need to be served accordingly;

- in order to maximize the potential of the Multi Service Centre everything needs to be transparent;

- CSSMI has long waiting lists for some programs and this school board could help alleviate the wait;
- the Multi Service Centre Principal acts on behalf of both school boards;
- protocol is 50-50 for the bilingual cohorts and if this school board cannot meet its 50% the remaining available spaces are ceded to the students of CSSMI;
- if the Comité de suivi disagrees on an issue the Directors general of the two school boards will meet to come to an agreement;
- goal of the Multi Service Centre for this school board is to ensure that students have access to Vocational Training in English.

WHEREAS the initial scope of the project will be extended to include Vocational Training program 5819 – Carpentry;

WHEREAS the Council of Commissioners of the Sir Wilfrid Laurier School Board adopted resolution #CC-160427-MR-0081, requesting authorization to borrow from the Ministère de l'Éducation et de l'Enseignement supérieur (the Ministère) for the Multi Service Centre in partnership with la Commission Scolaire de la Seigneurie-des-Mille-Iles, for the Laurentian region;

In response to other questions, the Director of Material Resources noted:

7.0 INFORMATION ITEMS

7.1 *SWL Foundation:*

Commissioner Ailsa Pehi commented on the most recent meeting of the Foundation noting:

- planning for the 2016-2017 year notably:
 - 2017-01-26 - January Gala
 - 2017-05-31 - Laurier Gala & Star Fest
 - 2017-06-08 - Lobster Gala
- examining ways to bridge the gap between the school communities and the Foundation so that there is a better understanding of what the Foundation has done for the schools to date and what future plans hold;
- the Foundation has raised over \$670,000 for the schools and centres since it was established;
- the Foundation is looking for new sponsors.

In response to questions, Commissioner Pehi noted:

- the Foundation is preparing a communication package that can be used whether presenting to a Governing Board or a potential sponsor;
- anyone is interested in being on the Foundation should write a letter to the President indicating an interest and this will be placed on the next agenda for consideration.

The Coordinator of Communications & Public Relations advised the Council that at its 2016-12-14 meeting the Foundation will be awarding project funding to those schools that submitted a project that was retained. The Principal and the person who wrote the project will be invited, as will the media.

The Chair invited Commissioner Ailsa Pehi to provide a brief report on her attendance at the Canadian School Boards Association (CSBA) Conference in July.

Commissioner Pehi commented on the conference and on her attendance at the National Trustee Gathering on Aboriginal Education noting:

- the President and the Executive Director of QESBA gave an informative presentation on Bill 86. Several attendees indicated that it was very interesting to hear about what the education issues are in Québec, given that there is not a lot of media coverage;
- attending the National Trustee Gathering for Aboriginal Education was very informative and all school boards throughout Canada need to work with these communities because for many children in these communities the only place where they have a sense of belonging, a sense of safety and security, a place to have a sense of normality, is school;
- school has saved many lives within the Aboriginal community where the suicide rate is high;
- Québec needs to expend a lot of effort in the support of the Aboriginal community because it is the only province in Canada where the students are not fully integrated into the public school system;
