## 8. NEW BUSINESS

### 8.1 Qualification – Services aux entreprises

The members welcomed Sophie Thibault, Project Development Officer who was here to present the Services aux entreprises to members. Qualification goes to businesses to assess their needs and is able to offer bilingual training to employees. The PowerPoint presentation will be sent to members.

Qualification:

- Provides attestations, not certificates
- Exploring classes by internet
- Generates significant revenues for the school board
- Repeat customers
- Goes into companies and provides services to them based on their budget.
- Has a partnership for some classes with Emploi Quebec
- May have opportunity to go into other provinces to teach
- Teachers are hired either through our school board or Sophie hires them

### 8.2 Date, Time, Place of Meetings

## 9. REPORTS

## 9.1 School Board's Report

- Proud to say that SWLSB is top 5 in the province with 84% graduation rate.
- We are number 1 in province for integration of our special needs students
- SWLSB has the lowest operating rates of any government institution in the province.
- Innovative programs in SWLSB, leaders in technology
- Voted in favour of Bill 144, that pertains to home schooling and the idea of free education for students. We support parental choice. However, we need a measure of control for parents reporting of home schooled students in our territory.
- The Chairperson met with Premier Couillard and Minister Proulx – discussed taxation, impending school board elections in 2018 – because of provincial elections at the same time they do not want to support two elections. The year after is the federal elections. Want to be sure that people have the opportunity to go and vote for their elected officials at the school level.
- Taxation – SWLSB has the highest tax rate allowable. The school tax rate is dictated by the government and even at the highest rate we still have a shortfall in collection – we are not able to collect the 19% that we should be collecting. Parents who are with our board are obliged to pay to our board. The Chairperson has been working on this issue – lobbying for a regional tax rate similar to what they have on the island of Montreal. She is hoping for one tax rate for our regions. At SWLSB we have a big territory that we share with eight French school boards – She was promised that this is the year that the taxes will be corrected. What also needs to be corrected is that once your child turns 18 you are automatically put onto the French school board. Parents must remember this when it is voting time to be sure that they are on the English voter list. The chairperson is also asking for online voting to facilitate our voters in remote areas.

In response to a question from Laval Junior Academy, the tax department is verifying that the parents whose children go to SWLSB are paying the English school board.

- Hearing a lot of news on school fees and the class action suit. The suit is on the consumables, that is, everything related outside of school supplies. I.e: field trips. Should this class action go through, many programs the schools offer would not be allowed to ask for money, which essentially means that they will no longer be available in our schools, as we are not budgeted to pay for these. Council will be fighting for this not to happen. Parents who have chosen to remain in the class action suit will be paid a small fee - that will cost the school board 2 million dollars. Council and other groups will lobby on behalf of our board in order to be able to continue to offer specialized programs to schools.

In response to a question from Lake of Two Mountains – we will not be pursuing a harmonized rate like they do in Montreal but a regional one for our territory.

In response to a question from St Jude Elementary, the range of school fees is between \$200 - \$350 depending on the school and the grade your child is in. \$200 elementary - \$325 for high school – these amounts do not include student supervision.

In response to a question from Twin Oaks Elementary, it is the governing board who makes the decision on the colour code/uniform model in schools. This is something that needs to be discussed at the individual schools.

In response to a question from Lake of Two Mountains, dyslexia is not recognized as a special need and is therefore not coded by the government – it is specific for at-risk student for reading and writing. Some funding is given for support to these children.

In response to a question from Genesis – the shortfall of taxes we are not able to recover is paid to us by the government.

- Our Strategic Plan ends in 2017. Bill 105 is requiring boards to develop Commitment to Success Plans. One of the groups that will be consulted is the parents committee. Consultation will go to several stakeholders and needs to be finalized by April 2018. Once it is in place the governing boards must develop educational projects in their schools.

Souvenir Elementary asked the Chair and the Assistant Director General what was learned from the events of today and would we have done things differently?

It was explained that a student from LSA posted in social media that students should not go to school because someone was going to the school and there would be stabbings. It came to the attention of the board at 10:30 p.m. and immediately everything was put

into place by police and crisis intervention teams. The police needed to do their investigation and we were asked to wait so that they would have an opportunity to do what they needed to do with regards to the bus before we could inform parents. We took the lead from the police as to when we could inform the parents. Looking for other systems that can diffuse information to parents quicker.

## 9.2 Treasurer's Report

Will have the full scope next month once we have the budget.  
The Chairperson explained where the budget went last year.

## 9.3 Parent Commissioner Report

In members packages

## 10. VARIA

### 10.1 STL bus company transportation

Souvenir Elementary reported that there are major issues with certain roads in the LJA area – one route in particular is a nightmare as even after one month of school the busses are still arriving late – Bus 198C. When calling the STL they are saying it is traffic and take a nonchalant attitude. They are also not dropping kids off at correct stops. Mr. Greschner will look into this.

### 10.2 Correspondence

We received a thank you note from Sainte-Agathe Academy for the PC award given to their students.
